Keep Your Feet Life-Long Healthy!

VIONIC™
WITH
ORTHAHEEL®
TECHNOLOGY

Partnership Performance Innovation

Our feet were designed to walk on natural, soft surfaces like soil and sand. When the feet strike soil or sand, these surfaces give way to accommodate the lower limb's natural 6 degree angle. Unfortunately, we give our feet unnatural hard, flat surfaces like pavements and floors. This forces our feet to roll over and our arches to flatten – a condition called excess pronation. Poor alignment of the feet and legs can cause wear and tear to other parts of the body, often disrupting normal knee function and hip alignment as well as increasing forces on muscles in the lower back.

Vionic Group products help restore natural foot function.

Customizable Orthotics - control foot function in all 3 cardinal planes. Can be heat molded with a standard heat gun by our expert physical therapists

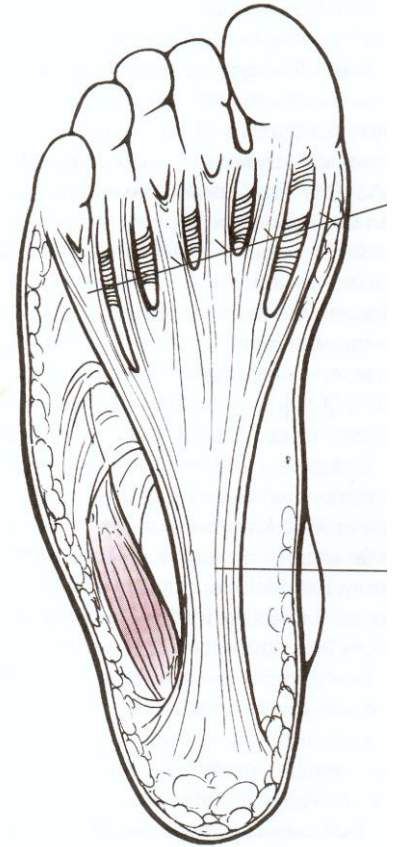

Available to Rehab Clinicians exclusively through Patterson Medical

We evaluate & Fit orthotics for patients with: Plantar Fasciitis, bunions, knee pain, back pain

Metatarsal Arch

Long Arch

- Knee alignment **without** & **with** orthotics

Vasyli Custom Full Length Insoles

\$58.00

These shoe inserts are designed for **padding the entire bottom of the foot**. They contour the shape of the foot to distribute pressure evenly. This helps **reduce the force of impacts felt by the foot when walking or running**.

Custom Fit

Getting the best fit is crucial for effective treatment of foot injuries and ailments. They can be reshaped with a heat gun to fit the foot better.

Blue: Offers medium density and is designed for the **“average” active patient with athletic or general orthotic needs**. Blue density orthotics provide excellent biomechanical control.

Green: Offers softer density and is ideal for **lighter or arthritic patients who require special support**. Patients adapt easily to the mild functional control while the correct biomechanical position is maintained.

Orthotics for Every Foot

Danenberg - the worlds first professional **bunion relief** orthotic device incorporates motion control in all 3 cardinal planes. It also features a Sorbon shock heel dot designed to dissipate force along the angle of strike. Can be **heat molded for custom fit** with a standard heat gun **by our expert physical therapists**

Vasyli+Armstrong II

Sensitive Feet Orthotics

- Developed with podiatrist David Armstrong, renowned as a world **leader in diabetic foot care**, the Vasyli Armstrong II is the most advanced foot orthotic in its class
- The top surface of this insole moves with the bottom surface of the foot **dramatically reducing shear/frictional forces**
- Designed for the **reduction of skin lesions** and the potential for infection/ulceration
- **Latex free**
- Can be **heat molded for custom fit** with a standard heat gun **by our expert physical therapists**

\$70.00

Vasyli Custom Extended Slimfit Insoles

- Designed for tailor-made biomechanical alignment in **women's dress shoes and backless sandals.**
- Under the heel is a **Velcro "dot"** so they will remain in place.
- These insoles **can also be customized** by our therapists using a standard heat gun

\$50.00

Accomodative Pre-molded Soft Orthotics

\$32.00

Alimed Accomodators.

Ideal for sensitive feet - and for people not accustomed to arch support. They give firm but gentle support under the heel, forefoot and metatarsal heads

McConnell orthotic is specifically designed **for ladies fashion** and high heel shoes. With support under the forefoot and metatarsal heads it distributes weight evenly in the forefoot of a high heel shoe.

\$50.00
